## Dear Welcome Home Friends and Family,

Thank you once again for your continued love and support of our children in Uganda. All our children have come to us with a sad story. As little ones they often realize that there is no one who is either able or willing to care for them. Some when they come to Welcome Home have faces that clearly show rejection, abandonment and pain and fear; all a burden much too heavy for a child to bear. There is a song that goes "when nothing else could help, love lifted me". That is the case for all these little ones pictured in this letter and at the home. Love lifted them and gave them hope.

The life stories of the children on this page and most of our other children would make you weep. As you can see the safe haven, love and nurture and nutrition that the children have been given since they came has brought a great transformation. They now are happy, very alive, vibrant, naughty, and lots of mischief.

For many of our workers at Welcome Home they have the same testimony as the children. Love has lifted them from the tough lives that many have come from. They have found love and support and encouragement to be able to make something of their lives. Many have taken advantage of our interest free micro-financing to help get their families to a better financial footing. It is good to see them prosper making a difference for their family.

Above: Timid but now coming out of her shell.

Above: A tender happy heart, very loving.

Above: A very happy group of boys secure in their future.

Thank you so much for your help during these summer months when the financial struggles are even greater. We appreciate you partnering with us to bring life transformation to so many.

## Blessings from Your Welcome Home Family
