“To Love, Care, and Pray Destitute Babies Back to Health, or into Jesus Loving Arms.”

Dear Welcome Home Friends and Family,

Life at Welcome Home reminds me of a beehive. Lots of activity - with occasional rest times for some of the bees - but not all of them. Just what one expects with so many little ones around with all their busy activity.

Thank you for your love and prayers and support for them all. Without you we would not be able to care for them and their lives would be in jeopardy or at a great disadvantage. Thank you for your faithfulness. It is life to our little ones.

Emmanuel (*above*) is our new baby: He was abandoned in somebody's kitchen. He looks very abused and has scratch marks all over his body and has marks to suggest that somebody had tried to strangle him. He came sick with Malaria. His HIV test is negative. He will quickly pick up with the medical help and safe loving environment with the bonus of good food. Pray for him to recover from the traumas. It is so sad that in our world today children suffer like this.

Claudia (Esther Nunez's friend), a Registered Nurse from California, is back for her second visit for nearly 2 months this time. She is a blessing with her skills teaching the staff, watching over the health of children of the home & also helping medically when we go on the village outreaches.

She has helped assess the needs in the village in the cane fields where there are so many children with needs. Our girls are growing their hair much to their delight. We have people volunteering their time to give them braids.

We so very much appreciate the support that comes mainly from USA, but also Uganda, England, Canada, Australia, New Zealand, Japan, Holland, etc.

We do thank you so much for your faithful prayers and the material and financial support of the children.
